

## SAFETY DATA SHEET (SDS)

### Section 1. Identification

<b>Product identifier</b>	624-250, 624-4L, 624-20L
<b>Other means of identification</b>	FASTAP DRILLING AND TAPPING OIL HIGH-PERFORMANCE
<b>Recommended use and restrictions on use</b>	Tapping fluid
<b>Initial supplier identifier</b>	PR Distribution, 6500 rue Zéphirin Paquet, Québec, QC, G2C 0M3, 1800-463-5259
<b>Emergency telephone number/restriction on use</b>	Canada – CANUTEC 24 hour number 613-996-6666

### Section 2. Hazard identification

<b>Classification of hazardous product (name of the category or subcategory of the hazard class)</b>
Reproductive toxicity (lactation) Hazardous to the aquatic environment - Acute (Category 1) Hazardous to the aquatic environment - Chronic (Category 1)
<b>Information elements (symbols, signal words, hazard statements and precautionary statements of the category/subcategory)</b>

#### Warning

H362 May cause harm to breast-fed children.

H410 Very toxic to aquatic life with long lasting effects.

P201 Obtain special instructions before use. P260 Do not breathe dust/fume/gas/mist/vapours/spray. P263 Avoid contact during pregnancy and while nursing. P264 Wash hands/nails/face thoroughly after handling. P270 Do not eat, drink or smoke when using this product. P273 Avoid release to the environment. P391 Collect spillage. P308 + P313 IF exposed or concerned: Get medical attention. P501 Dispose of contents/container into safe container in accordance with local, regional or national regulations.

<b>Other hazards known</b>	None
----------------------------	------

### Section 3. Composition/information on ingredients

Chemical name (common name/synonyms)	CAS number or other	Concentration (%)*
Paraffin chlorinated C14-17	61788-76-9	30-60
Lard oil	8016-28-2	5-10

\* Statement - This safety data sheet provides concentration range(s) instead of the actual concentration(s) considered trade secret(s).

### Section 4. First-aid measures

<b>Inhalation</b>	IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a doctor if you feel unwell.
<b>Ingestion</b>	IF SWALLOWED: Immediately call a doctor. DO NOT INDUCE VOMITING. NEVER give anything by mouth if victim is rapidly losing consciousness, or is unconscious or convulsing. Rinse mouth thoroughly with water. Have victim drink two glasses of water. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration.
<b>Skin contact</b>	IF ON SKIN: Rinse skin with water (5-10 minutes).
<b>Eye contact</b>	IF IN EYES: Rinse eyes with water (5-10 minutes).
<b>Most important symptoms and effects (acute or delayed)</b>	None
<b>Indication of immediate medical attention/special treatment</b>	In all cases, call a doctor. Do not forget this document.

### Section 5. Fire-fighting measures

<b>Specific hazards of the hazardous product (hazardous combustion products)</b>
Carbon oxides and other irritant/toxic gases and fumes.
<b>Suitable and unsuitable extinguishing media</b>
In case of fire: Use carbon dioxide, chemical powder agent and appropriate foam to extinguish.
<b>Special protective equipment and precautions for fire-fighters</b>
During a fire, irritating/toxic smoke and fumes may be generated. Do not enter fire area without proper protection. Firefighters should wear proper protective equipment and self-contained breathing apparatus with full facepiece. Shield personnel to protect from venting, rupturing or bursting cans. Move containers from fire area if it can be done without risk. Water spray may be useful in cooling equipment and cans exposed to heat and flame.

### Section 6. Accidental release measures

<b>Personal precautions, protective equipment and emergency procedures</b>
Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up should wear the appropriate protective equipment (See Section 8).
<b>Methods and materials for containment and cleaning up</b>
Ventilate area of release. Stop the leak if it can be done safely. Contain and absorb any spilled liquid concentrate with inert absorbent material, then place material into a container for later disposal (see Section 13). Contaminated absorbent material may pose the same hazards as the spilled product. Notify the appropriate authorities as required.

Section 7. Handling and storage				
<b>Precautions for safe handling</b>				
Wear gloves/protective clothing/eye protection/face protection. Before handling, it is very important that engineering controls are operating, and that protective equipment requirements and personal hygiene measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspect containers for leaks before handling. Label containers appropriately. Ensure proper ventilation. Avoid breathing dust/fume/gas/mist/vapours/spray. Avoid contact with eyes, skin and clothing. Keep away from heat, sparks and flame. Avoid generating high concentrations of dusts, vapours or mists. Keep away from incompatible materials (Section 10). Keep containers closed when not in use. Empty containers are always dangerous. Refer also to Section 8.				
<b>Conditions for safe storage, including any incompatibilities</b>				
Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up. Store away from incompatible materials (Section 10). Inspect all incoming containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear of obstruction and accessible only to trained personnel. Inspect periodically for damage or leaks.				
Section 8. Exposure controls/Personal protection				
<b>Control parameters (biological limit values or exposure limit values and source of those values)</b>				
Exposure limits: None;				
<b>Appropriate engineering controls</b>				
Use under well-ventilated conditions. Local exhaust ventilation system is recommended to maintain concentrations of contaminants below exposure limits. Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.				
<b>Individual protection measures/personal protective equipment</b>				
Respiratory protection is required if the concentrations are higher than the exposure limits. Use a NIOSH approved respirators if the exposure limits are unknown. Chemically protective gloves (impervious), and other protective clothing to prevent prolonged or repeated skin contact, must be worn during all handling operations. Wear protective chemical splash goggles to prevent mists from entering the eyes. Wash hands/nails/face thoroughly after handling. Do not eat, drink or smoke when using this product. Practice good personal hygiene after using this material. Remove and wash contaminated work clothing before re-use.				
Section 9. Physical and chemical properties				
<b>Appearance, physical state/colour</b>		Liquid	<b>Vapour pressure</b>	Not available
<b>Odour</b>			<b>Vapour density</b>	Not available
<b>Odour threshold</b>		Not available	<b>Relative density</b>	1.05
<b>pH</b>		Not available	<b>Solubility</b>	Not available
<b>Melting/freezing point</b>		Not available	<b>Partition coefficient - n-octanol/water</b> Not available	
<b>Initial boiling point/range</b>		Not available	<b>Auto-ignition temperature</b> Not available	
<b>Flash point</b>		Not available	<b>Decomposition temperature</b> Not available	
<b>Evaporation rate</b>		Not available	<b>Viscosity</b> Not available	
<b>Flammability (solids and gases)</b>		Not available	<b>VOC</b>	Not available
<b>Upper and lower flammability/explosive limits</b>		Not available	<b>Other</b>	None known
Section 10. Stability and reactivity				
<b>Reactivity</b>				
Does not react under the recommended storage and handling conditions prescribed.				
<b>Chemical stability</b>				
Stable under the recommended storage and handling conditions prescribed.				
<b>Possibility of hazardous reactions</b>				
None known				
<b>Conditions to avoid (static discharge, shock or vibration)</b>				
None known				
<b>Incompatible materials</b>				
None known				
<b>Hazardous decomposition products</b>				
None known				
Section 11. Toxicological information				
<b>Information on the likely routes of exposure (inhalation, ingestion, skin and eye contact)</b>				
Causes very mild skin and eye irritation. May cause harm to breast-fed children.				
<b>Symptoms related to the physical, chemical and toxicological characteristics</b>				
Very mild skin and eye irritation.				
<b>Delayed and immediate effects (chronic effects from short-term and long-term exposure)</b>				
Skin Sensitization – No data available; Respiratory Sensitization – No data available; Germ Cell Mutagenicity – No data available; Carcinogenicity – No ingredient listed by IARC, ACGIH, NTP or OSHA; Reproductive Toxicity – Possible; Specific Target Organ Toxicity — Single Exposure – No data available; Specific Target Organ Toxicity — Repeated Exposure – No data available; Aspiration Hazard – No data available; Health Hazards Not Otherwise Classified – No data available.				
<b>Numerical measures of toxicity (ATE; LD<sub>50</sub> &amp; LC<sub>50</sub>)</b>				
None;				
ATE not available in this document.				

Section 12. Ecological information	
<b>Ecotoxicity (aquatic and terrestrial information)</b>	
No data available for this product.	
<b>Persistence and degradability</b>	No data available
<b>Bioaccumulative potential</b>	No data available
<b>Mobility in soil</b>	No data available
<b>Other adverse effects</b>	Very toxic to aquatic life with long lasting effects.
Section 13. Disposal considerations	
<b>Information on safe handling for disposal/methods of disposal/contaminated packaging</b>	
Dispose of contents/container into safe container in accordance with local, regional or national regulations.	
Section 14. Transport information	
<b>UN number; Proper shipping name; Class(es); Packing group (PG) of the TDG Regulations</b>	
Not regulated	
<b>UN number; Proper shipping name; Class(es); Packing group (PG) of the IMDG (maritime)</b>	
UN3082; ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (Paraffin chlorinated C14-17); Class 9; PG III; Marine pollutant	
<b>UN number; Proper shipping name; Class(es); Packing group (PG) of the IATA (air)</b>	
UN3082; ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (Paraffin chlorinated C14-17); Class 9; PG III; Marine pollutant	
<b>Special precautions (transport/conveyance)</b>	None
<b>Environmental hazards (IMDG or other)</b>	Marine Pollutant
<b>Bulk transport (usually more than 450 L in capacity)</b>	Possible
Section 15. Regulatory information	
<b>Safety/health Canadian regulations specifics</b>	Refer to Section 2 for the appropriate classification. This product has been classified in accordance with the hazard criteria of the Hazardous Products Regulations (HPR).
<b>Environmental Canadian regulations specifics</b>	Refer to Section 3 for ingredient(s) of the DSL
<b>Safety/health/environmental outside regulations specifics</b>	
None	
Section 16. Other information	
<b>Date of the latest revision of the safety data sheet</b>	March 09, 2019 version 1 (NSS ENTREPRISE INC.)
<b>References</b>	Safety Data Sheets from manufacturer/supplier & from Canadian Centre for Occupational Health and Safety, CCOHS.
